

FALL 2020 REMOTE DEPARTMENT and COURSE TUTORS

Department tutors work one-on-one or in small group sessions with students and provide support for either all courses within a department or for a particular course (see below).

Peer tutors do not attend the class sessions, but they have been selected by course instructors and department chairs based on their prior experience in relevant courses.

These tutors do not send direct reports to instructors about sessions unless otherwise specified.

These tutors are paid employees of the College, not volunteers.

Department tutors have set tutoring hours every week and can help their peers prepare for exams, understand concepts covered in class, or go over homework assignments.
