

Moodle 3.5 Guide for Students

New Look

1. Login information is the same username and password used on “Old Moodle” (your college username and password).

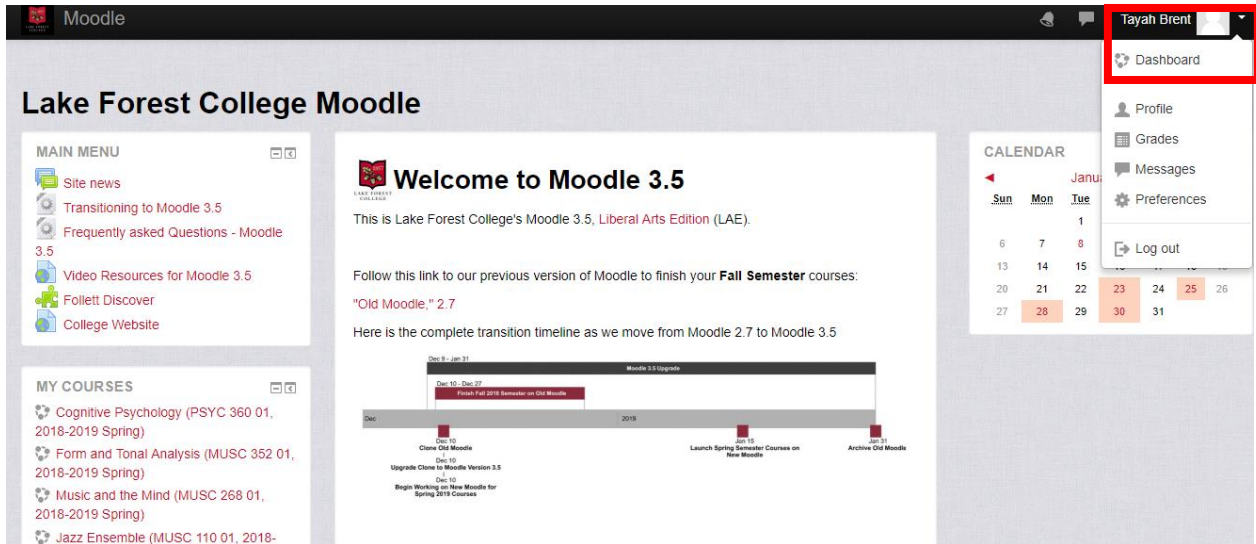

2. Courses are located in the same spot (left side)

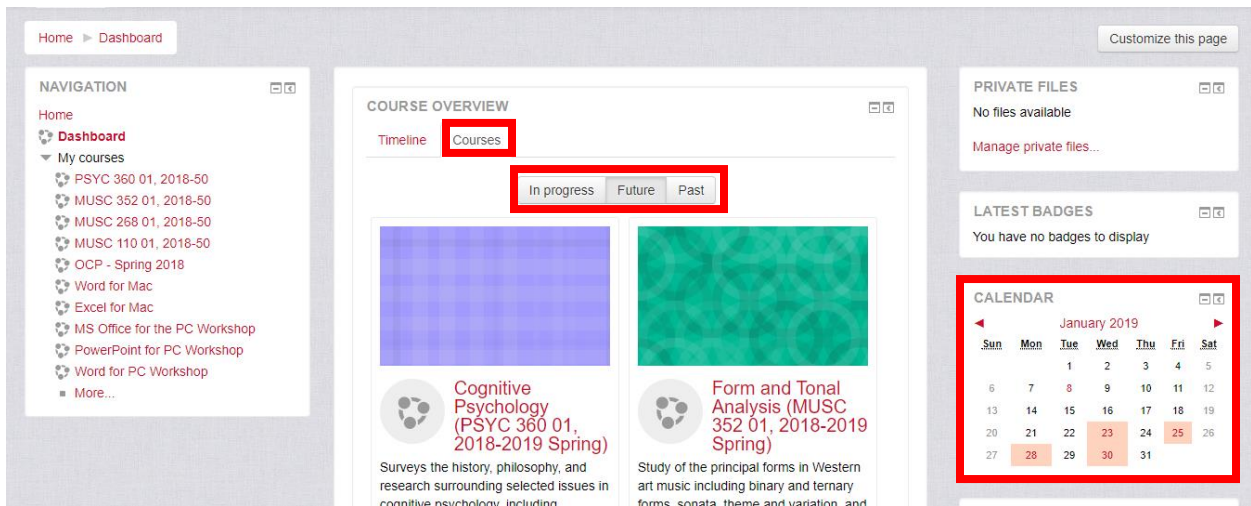

3. New 'Dashboard' feature

- Access it by clicking the down arrow by your name, then click "dashboard"

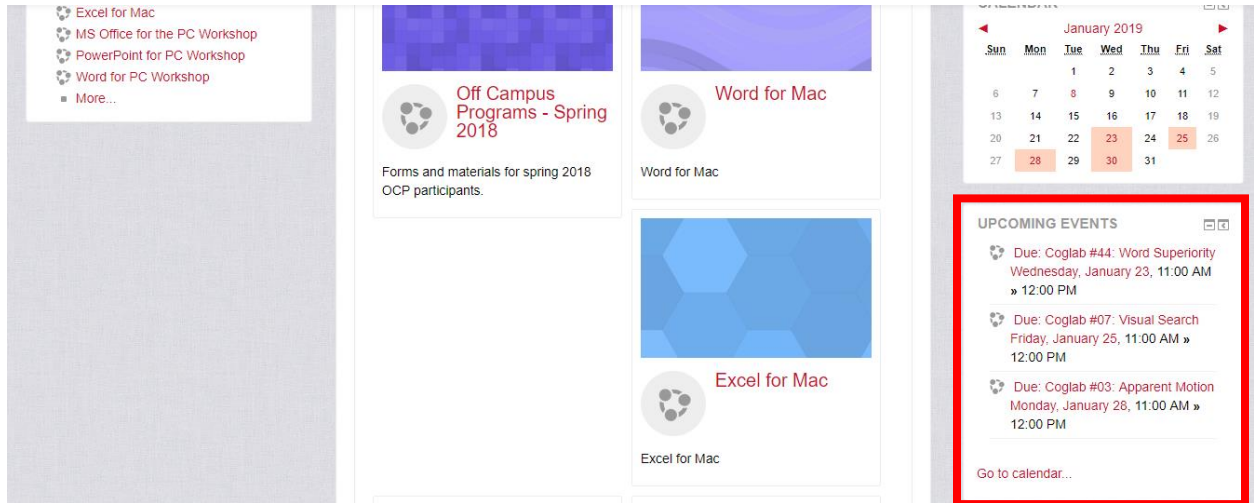

4. Dashboard allows you to organize your courses and shows which classes you are currently taking (In Progress), will take (Future), or took already (Past).

- Calendar highlights important due dates

5. Upcoming Events (located under the calendar) also has the due dates for all of your courses where your Professor entered assignments in Moodle. ***Remember to always refer to your Syllabus or instructions from your Professors on when your course work is due and how it should be submitted.***

The screenshot displays a Moodle course interface. On the left is a sidebar menu with items: 'Excel for Mac', 'MS Office for the PC Workshop', 'PowerPoint for PC Workshop', 'Word for PC Workshop', and 'More...'. The main content area features three blocks: 'Off Campus Programs - Spring 2018' with a description 'Forms and materials for spring 2018 OCP participants.', 'Word for Mac', and 'Excel for Mac'. On the right, a calendar for January 2019 is shown, with dates 23, 25, and 28 highlighted. Below the calendar is an 'UPCOMING EVENTS' section, outlined in red, listing three due dates: 'Due: Coglab #44: Word Superiority Wednesday, January 23, 11:00 AM » 12:00 PM', 'Due: Coglab #07: Visual Search Friday, January 25, 11:00 AM » 12:00 PM', and 'Due: Coglab #03: Apparent Motion Monday, January 28, 11:00 AM » 12:00 PM'. A 'Go to calendar...' link is at the bottom of this section.

That's it! Everything else with your courses should look and feel the same as "old Moodle."
